# RAKESH RAMBABU

## Fresher UI/UX Developer

### ABOUT ME

As a passionate and detail-oriented UI/UX Developer, I bring a strong foundation in front-end development along with a drive to create engaging and user-friendly interfaces. Proficient in HTML, CSS, JavaScript and Reactjs, I am adept at translating design concepts into responsive and functional web applications. With a keen eye for design principles and a commitment to continuous learning, I am eager to contribute my skills to a dynamic team and grow as a professional in the field of web development

### WORK EXPERIENCE

#### ANZ

Cybersecurity Job Management Simulation (Internship) **Nov 2023**

- Completed a simulation focussed on identifying cybersecurity threats at ANZ
- Investigated e-mails to report suspicious items
- Analysed a Packet Capture file using an open source tool to identify and investigate any potential threats
- Demonstrated proficiency in using open-source tools and techniques to gather information and
- investigate potential cyber threats.
- Traffic Analysis (NTA): Utilized packet capture analysis tools (e.g., Wireshark) to identify suspicious
- network activity and potential threat.

#### Ancile Inc

**July 23- present**

US staffing and Study Abroad

- Successfully sourced, screened, and recruited qualified candidates for various positions across multiple industries.
- Maintained strong relationships with clients to understand their staffing needs and provided tailored recruitment solutions.
- Conducted interviews, managed candidate pipelines, and coordinated onboarding processes.

#### Accenture

**2022**

Data Analyst (Internship)

- Analyzed large datasets using advanced statistical techniques, resulting in accurate and actionable insights for decision-making and process improvement.
- Developed and implemented data-driven models and algorithms to forecast market trends, optimizing sales strategies and increasing revenue by 15%.
